

WHAT WE DO ON NOVEMBER 3, 2020 WILL DETERMINE THE FATE OF AMERICA

At the heart of the election lies two competing visions: Is America good and its founding principles worthy of preserving, or is it evil and our society needs to be dismantled and rebuilt?

The Republican Party has faith in America. Our nation is rooted in a value system that transcends race and nationality. We honor America as one nation, under God, indivisible, with liberty and justice for all, and we salute the American flag.

For each crisis, we stand as a nation. No country expended more treasure and blood to end slavery. No country sent more sons, husbands and brothers to fight against tyranny in foreign lands and rebuild war-torn nations. They asked for nothing “except enough ground to bury them in.” President Lincoln proclaimed, “America is the world’s last hope.” It still rings true today.

Today’s Democratic Party views America as a country of bigots. The 2020 DNC platform formally declared war on White America. They blame the “extreme” wealth gap between white families and people of color for “hurting our working class and holding our country back.” Under the banner of fighting “systemic racism,” the Biden/Sanders Unity Task Force unleashed a 110-page policy proposal designed to inflict “revolutionary institutional changes” on America.

They combined Bernie Sanders’ tax-and-spend socialism with Elizabeth Warren’s government command-and-control system, with the goal to transform our society into a socialist welfare state, turning every desire into a right, and every right guaranteed by taxpayer funding.

When America is roiling with a pandemic-induced recession and millions of people have lost their jobs, the Democrats’ economic platform of higher taxes, a job-killing Green New Deal, racial-justice regulations, free benefits to 11 million illegals and gargantuan welfare spending will bankrupt the economy, crash the stock market, plunder senior citizens’ savings and hurt American workers.

Biden's revolution constitutes nothing more than a grand scheme to divide America on the basis of race in order to take power away from the people. With government for, of, and by government, the Biden manifesto stands as a marker of the Democratic Party's moral bankruptcy.

To all Americans, our nation is under attack by an invisible enemy. Cities are burning. The current state of our union requires that we stop this dangerous Biden revolution before it engulfs America. This election is about ending mob rule and restoring law and order, keeping our families safe from violence that's rampaging Democrat-run cities, defending our border, protecting our First and Second Amendments, and rejecting campus cancel culture and dishonest media.

This election is about saying no to punitive taxes and welfare abuse, protecting America's energy independence, and unleashing the ingenuity of the American people to revive the economy.

This election is about our future: do we want our children to be indoctrinated in failing public schools, or do we want them to thrive in schools of our choice? Do we want the next generation to grow up by rigid lines of color and class, or do we want the descendants of past slaves, today's immigrants, and white Americans to flourish together?

Most importantly, this election is about nipping the ugly head of socialism in the bud. It is about defending our Constitution and the meaning of liberty as our nation's founders originally intended: limited government, individual rights and personal responsibility, and protecting the sacred trust we call freedom, not with guns and tanks, but with pens at the ballot box.

**PRESIDENT TRUMP IS OUR BEST HOPE TO KEEP AMERICA GREAT.
VOTE RED ON NOVEMBER 3RD!**
